APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and to the agreement between the parties under Rule 7A of the Las Vegas Valley Water District, and is limited to what the well will produce but not to exceed 1.75 c.f.s. A meter must be installed in the discharge pipe line, near the point of diversion, and accurate measurements must be kept of water placed to beneficial use. It is understood that this right must allow for a reasonable lowering of the static water level. This source is located within an area designated by the State Engineer pursuant to NRS 534.030, therefore, the State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.75 cubic feet per second.

Actual construction work shall begin on or before November 17, 1962  
Proof of commencement of work shall be filed before December 17, 1962  
Work must be prosecuted with reasonable diligence and be completed on or before November 17, 1963  
Proof of completion of work shall be filed before December 17, 1963  
Application of water to beneficial use shall be made on or before November 17, 1964  
Proof of the application of water to beneficial use shall be filed on or before December 17, 1964  
Map in support of proof of beneficial use shall be filed on or before
